One second-foot equals 448.83 gals. per min.
 (a) If stored in reservoir give number of acre-feet
3. The water to be used for Quasi Municipal
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.
4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated:
 - (b) Stockwater, state number and kinds of animals to be watered:
 - (c) Other use (describe fully under "No. 12. Remarks" Trailer Park
 - (d) Power:
 - (1) Horsepower developed
 - (2) Point of return of water to stream
5. The water is to be diverted from its source at the following point: located within the NW¼ of NW¼ of
Describe as being within a 40-acre subdivision of public
 Section 2, T3S, R67E, M.D.B.&M. Lincoln County, Nv.; or at a point from which
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
 the Northwest Corner of said Section 2 bears N5°W a distance of 857 feet.
6. Place of use NW¼ of the NW¼ of Section 2, T3S, R67E, M.D.B.&M. Lincoln County
Describe by legal subdivision. If on unsurveyed land, it should be so stated.
 Nevada.
7. Use will begin about Jan. 1-st and end about Dec. 31-st, of each year.
Month and Day Month and Day
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
 specifications of your diversion or storage works.) well, casing, pump and piping necessary to
State manner in which water is to be diverted, i.e. diversion structure, ditches and
 service a 200 unit trailer park
flumes, drilled well with pump and motor, etc.
9. Estimated cost of works \$15,000

10. Estimated time required to construct works two years
 If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use four years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Water from this well to be used for a back-up well for Permit No. 41771, and

 in conjunction with a proposed 200 unit trailer park. The original application

 filed September 28, 1981 shows the point of diversion to be N82° 52' 30" W to
 the N.W. Cor. Sec. 2 (Item 5) when in fact the actual proposed point of diver-
 sion will be N5° W a distance of 857 feet. This course and distance is correct-
 ly shown on the Supporting Map.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined duty of water under this permit and Permit 41771 shall not exceed 6.57 million gallons annually.

This Permit is issued as a backup well to Permit 41771 and the total duty is limited to the 60 trailers approved under Permit 41771.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and

not to exceed 0.5 cubic feet per second, but not to exceed

6.57 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before August 20, 1983

Proof of completion of work shall be filed before September 20, 1983

Application of water to beneficial use shall be made on or before August 20, 1984

Proof of the application of water to beneficial use shall be filed on or before September 20, 1984

Map in support of proof of beneficial use shall be filed on or before _____
